

WEEKLY BULLETIN

11 – 15 MARCH 2024

Quote

"Arguing that you don't care about the right to privacy because you have nothing to hide is no different than saying you don't care about free speech because you have nothing to say."

Edward Snowden

National Health Service (NHS) - Data Breach

NHS Scotland's Dumfries and Galloway health board has been targeted by hackers, potentially obtaining sensitive patient data. The organization, which operates hospitals in Scotland, has enacted security protocols and is working with the Scottish police and the UK's National Cyber Security Center. The healthcare provider is urging staff and the public to be vigilant for any attempts to access their systems or approaches from anyone claiming to be in possession of data.

PATCHING ALERT

Microsoft - Patching Alert

Microsoft has released security updates for 60 vulnerabilities, 18 of which are remote code execution (RCE) flaws. The updates fix only two critical vulnerabilities: Hyper-V remote code execution and denial of service flaws.

Some interesting vulnerabilities include CVE-2024-21400, CVE-2024-26199, CVE-2024-20671, etc.

NAECCS in Meeting with the counterpart authorities of Kosovo: Cooperation and Exchange of Experience

NAECCS had the pleasure of welcoming today, on March 13, colleagues from the Regulatory Authority of Electronic and Postal Communications (ARKEP), the Information Society Agency (ASHI) and Kos-CERT from Kosovo. This meeting, supported by DCAF, was led by the general director, Mr. Igli Tafa in the presence of NAECCS experts.

NAECCS presented the colleagues with the way of organization, operation and responsibilities of the Authority, the legal framework, innovations and challenges of cyber security in Albania. The authorities also visited the work premises of the SOC national operational center.

Such organizations serve to strengthen the cooperation between the respective authorities of the countries of the region, the exchange of experience and best practices.
